

PROLINE PRECISION
ARCHITECTURAL
HARDWARE

The Proline range has been designed as a high quality solution to meet the exacting needs of Architects, Specifiers, Contractors and Clients.

Developed with experience and an eye for detail, the range of handles and accessories compliment a wide range of construction developments.

High quality products with value and style to suit the growing demand of the consumer.

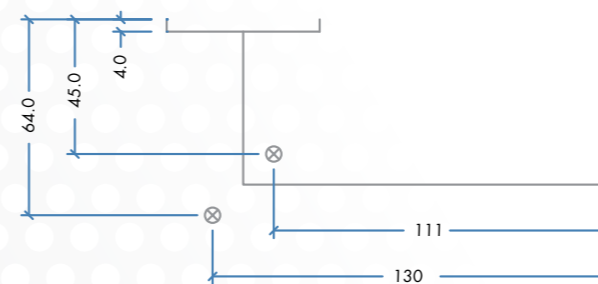

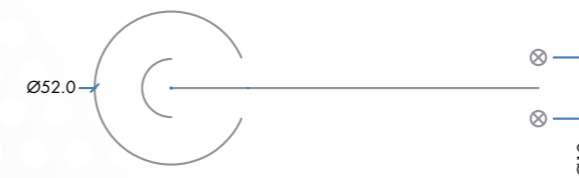

Highest standard

- All grade 304 stainless steel.
- Satin stainless steel finish throughout.
- Modern / contemporary slim-line rose.
- 52mm diameter rose.
- All tested to BS EN 1906 Grade 3.
- Architectural quality designs.

Sustainability

Low environmental impact – by carefully selecting components, materials and manufacturing methods to reduce energy usage, materials and environmentally harmful processes.

All packaged in recyclable boxes.
